
Title: Tribunal Meeting

Author: Treadeau Du'rome

In the preceding days, I have been weighing heavily several positions that needed filling within the territory that is Caina. After careful contemplation, I have chosen a course of action and several people to fill various roles within the city. The first of these positions is the Minister of War who is the overall designer of Cainan defense and offense reporting directly to the Tribunal and myself. Jergal, Necromancer to the Ebon Skull has found his way into this position. The next title of importance confronting the Tribunal was the new militia commander and I have found this with Drachma, Death Knight of the Ebon Skull, with his duties are formulating the bulk of the land force for Caina and working with Jergal and myself to insure the safety, peace and prosperity of Cainan citizens. Lastly, I have appointed Rune Artisem with eventual Tribunal consent as the official Minister of Race Relations to the city of Caina.

With these pro-temp appointments announced I would like to call a meeting of the whole Tribunal for one week hence (Saturday April 14 at 3:00pm EST) to

discuss these
appointments and to see
if there are any Shadow
Conclave objections to
what is currently being
done with our city.
